Re: North Arrow Minerals participation in three regional public hearings

Dear Mr. Savoy,

We write with respect to the NPC's notice of March 3, 2017 advising participants to the Nunavut Land Use Planning process that the single, Nunavut wide public hearing has been cancelled and replaced with three regional public hearings.

North Arrow is unable to attend all three regional meetings. We therefore advise you that North Arrow presently plans on attending the Kivalliq Regional Public Hearing scheduled for June.

However, as noted in North Arrow's September 15, 2016 application to the NPC for standing as a Participant and reiterated in our final written submission dated January 13, 2017, North Arrow has active exploration tenures in all three regions of Nunavut. Please therefore be further advised that, during the upcoming Qikiqtani Regional Public Hearing, North Arrow intends to ask Elizabeth Kingston of the NWT & Nunavut Chamber of Mines to read a statement on North Arrow's behalf during North Arrow's allotted presentation number 59 on the evening of March 25, 2017.

Please let us know if the NPC has any concerns with this arrangement.

Sincerely,

North Arrow Minerals Inc.

Per:

Ken Armstrong, P.Geo.(ON)

President & CEO
