UNA 2016 INIRHIMAITUQ NUNAVUNMI NUNANIK ATUQNIKKUT HIVUNIKHAQ (DNLUP)

THE 2016 DRAFT NUNAVUT LAND USE PLAN (DNLUP)

Inuvalungnut Tuhagaahhak –Public Hearing
March 2017

Nunavut Kavamaat - Government of Nunavut (GN)

NAITTUQMIQ OVERVIEW

1. GN Role, Mandate and Legislation
1. Nunavutmi Kavamaat Havaanga, Pitkuyauyutlu Maliganut
2. Technical Review
2. Ayuirninnganik Naunaiyaqqhimaaq
3. Conclusions
3. Qanuriliurniarmangaat

1.0 NUNAVUTMI KAVAMAAT HAVAANGA

1.0 GOVERNMENT OF NUNAVUT'S ROLE

- Plan approval authorities, along with Nunavut Tunngavik Incorporated and the federal government
- An active participant in NPC processes to-date
- Primary interests are in terrestrial wildlife protection and management, as well as economic development
- Hivunikhaliurlugit angiqtukhat atanngauyauyut, ilaulutik Nunavut Tunngavikut kavamatuqatkullu
- Ilauqatauqpiaqtuq uvani NPC-kut havagutainni uplumimun
- Piyumaniqarlluarniqaqtuq nunani huratjani munarittiarutainnun aulapkaittiarutainnunlu, ukunanilu piangaiyarnikkut pivallialiurnirmun.

1.1.PITJUTIQAQTUT MALIGAT

1.1 RELEVANT LEGISLATION

Relevant Legislation and Regulations include but are not limited to:

- *Wildlife Act*
- *Environmental Protection Act*
- *Public Health Act*
- *Scientists Act*
- *Official Languages Act*
- *Nunavut Archaeological and Palaeontological Sites Regulations*

Pitjutiqaqtut Maligat Maligaghallu ilaqaqtut kihimi kikliqangittu hapkununa:

- *Uumayulirinirmut Maligaq*
- *Avatimun Happumminirmut Maligaq*
- *Aanniaqtailirnirmut Maligaq*
- *Qauyihaqtiaqtilirnirnut Maligaq*
- *Ilitariyauhimayunut Uquauhinut Maligaq*
- *Nunavunmi Ingilraangnitaliqnirnun Haunituqalirnikkullu Ininginni Maligaghat*

1.2 SIVUMUT ABLUQTA

- The vision of *Sivumut Abluqta* is to see the responsible management and development of natural resources that benefit Nunavummiut.
- Tautuhimania uuma Sivumut Abluqta takuyumapluni nakuuniqaqtunik aulapkaitjutinik pivallialirutiniklu nunamin piqutainnin ikayuruqtiqaqtut Nunavunmiunnun.

1.3 PITJUTIQAQTUT MALIGAGHAT

1.3 RELEVANT POLICIES

- **Parnautiit**, the GN Mineral Exploration and Mining Strategy
- **Tunngasaiji**, the GN Tourism Strategy
- **Working Together for Caribou**, the GN Caribou Strategy
- **Ingirrasiliqta**, the GN Transportation Strategy
- **Parnautiit**, Nunavut Kavamatkut Uyaraghiurnikkut Uyaraghiuqviknilu Parnaquti
- **Tunngasaiji**, Nunavut Kavamatkut Aquinikkut Parnaquti
- **Havaqatigiikniq Tuktunun**, Nunavut Kavamatkut Tuktukkut Parnaquti
- **Ingirrasiliqta**, Nunavut Kavamatkut Ingilratjutikkut Parnaquti

1.4 INUIT QAUJIMAJATUQANGIT

The DNLUP must reflect Inuit traditional knowledge:

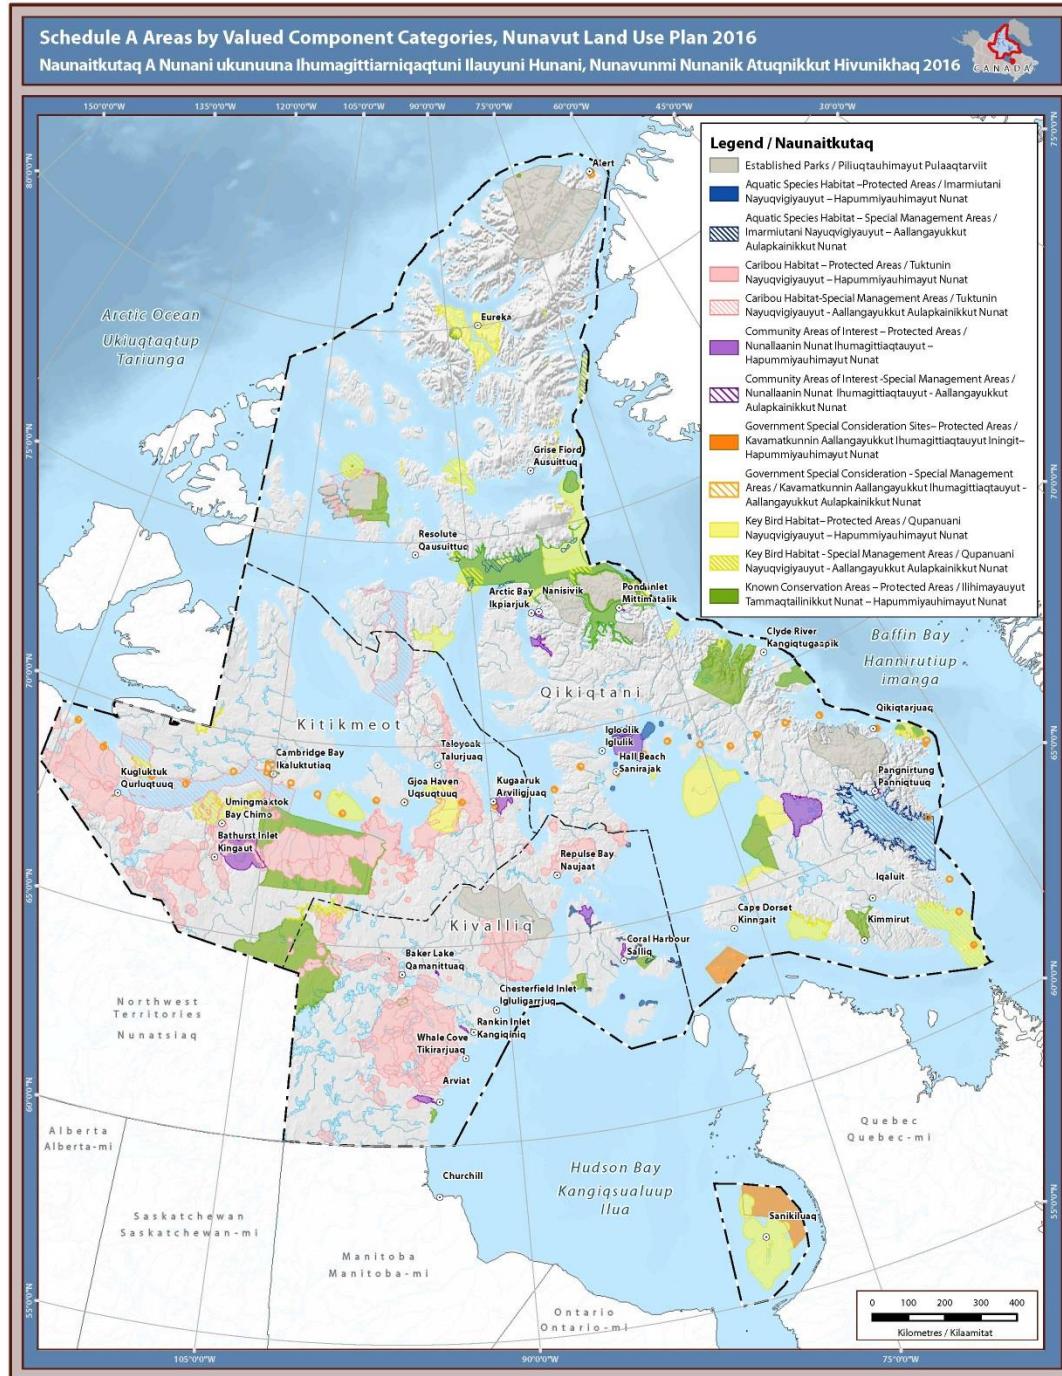

- **Pijitsirniq:** serving and providing for family and/or community.
- **Qanuqtuurniq:** being innovative and resourceful.
- **Avatittinnik Kamatsiarniq:** respect and care for the land, animals, and the environment.
- **Aajiiqatigiinniq:** decision making through discussion and consensus.

Una DNLUP tautungniqaqtukhaq Inuit pitquhikkut qauyihimayainnik:

- **Pijitsirniq:** kivaqtuinikkut tunirhainikkullu ilaruhinun ukunungalu/ukunungaluunniit nunallaamun.
- **Qanuqtuurniq:** ahikkuurutikkut qanuriliurutikkullu.
- **Avatittinnik Kamatsiarniq:** ihumagittiarniq munarittiarniqlu nunamun, huratjanun, avatimullu.
- **Aajiiqatigiinniq:** ihumaliurniq uqaqatigiikkut atautikkullu angirutikkut.

2.0 TECHNICAL REVIEW

What types of land use restrictions are appropriate?
To what extent?

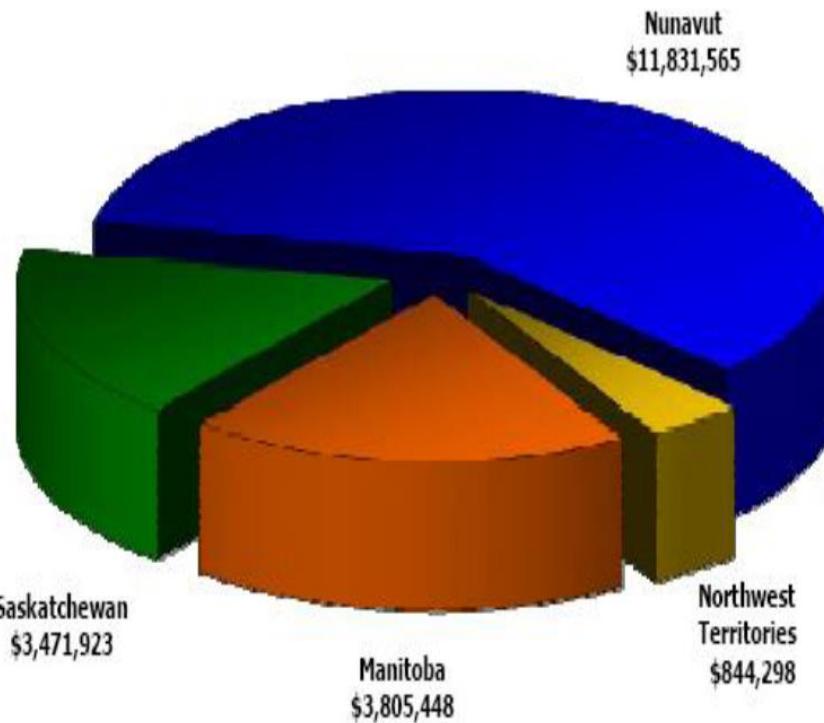

Qanurittutnik nunani
aturutainni kikliqarutikhat
ihuaqtut? Qanuraalutun?

GN - ANGIYUT IHUMAALUUTIGIYAUYUT/ PITQUYAUHIMAYUUGALUAT

GN - MAJOR CONCERNS/RECOMMENDATIONS

- Caribou Protection
- Economic Development
- Transportation and Community Infrastructure
- Use Restrictions Supported by Nunavummiut
- Appropriate Scope for ‘First Generation Plan’
- Tuktuni Hapumminiit
- Piangayarnikkut Pivallialiurniq
- Ingilratjutilirinirnun Nunallaanilu Aulapkaitjutingit
- Aturnikkut Kikliqarutit Angiqtauhimayut Nunavunumiunnin
- Ihuaqtuq qanuriliurutikhaa uumani ‘hivulliqpaanguyumi kinguliriiktukhanik hivunikhaq’

In 2008 just the Qamanirjuaq and Beverly herds alone had a direct value to Inuit of over 11 million dollars; a value of 110 million over the next decade.

- Healthy food = healthy families
- Cultural value = invaluable/priceless

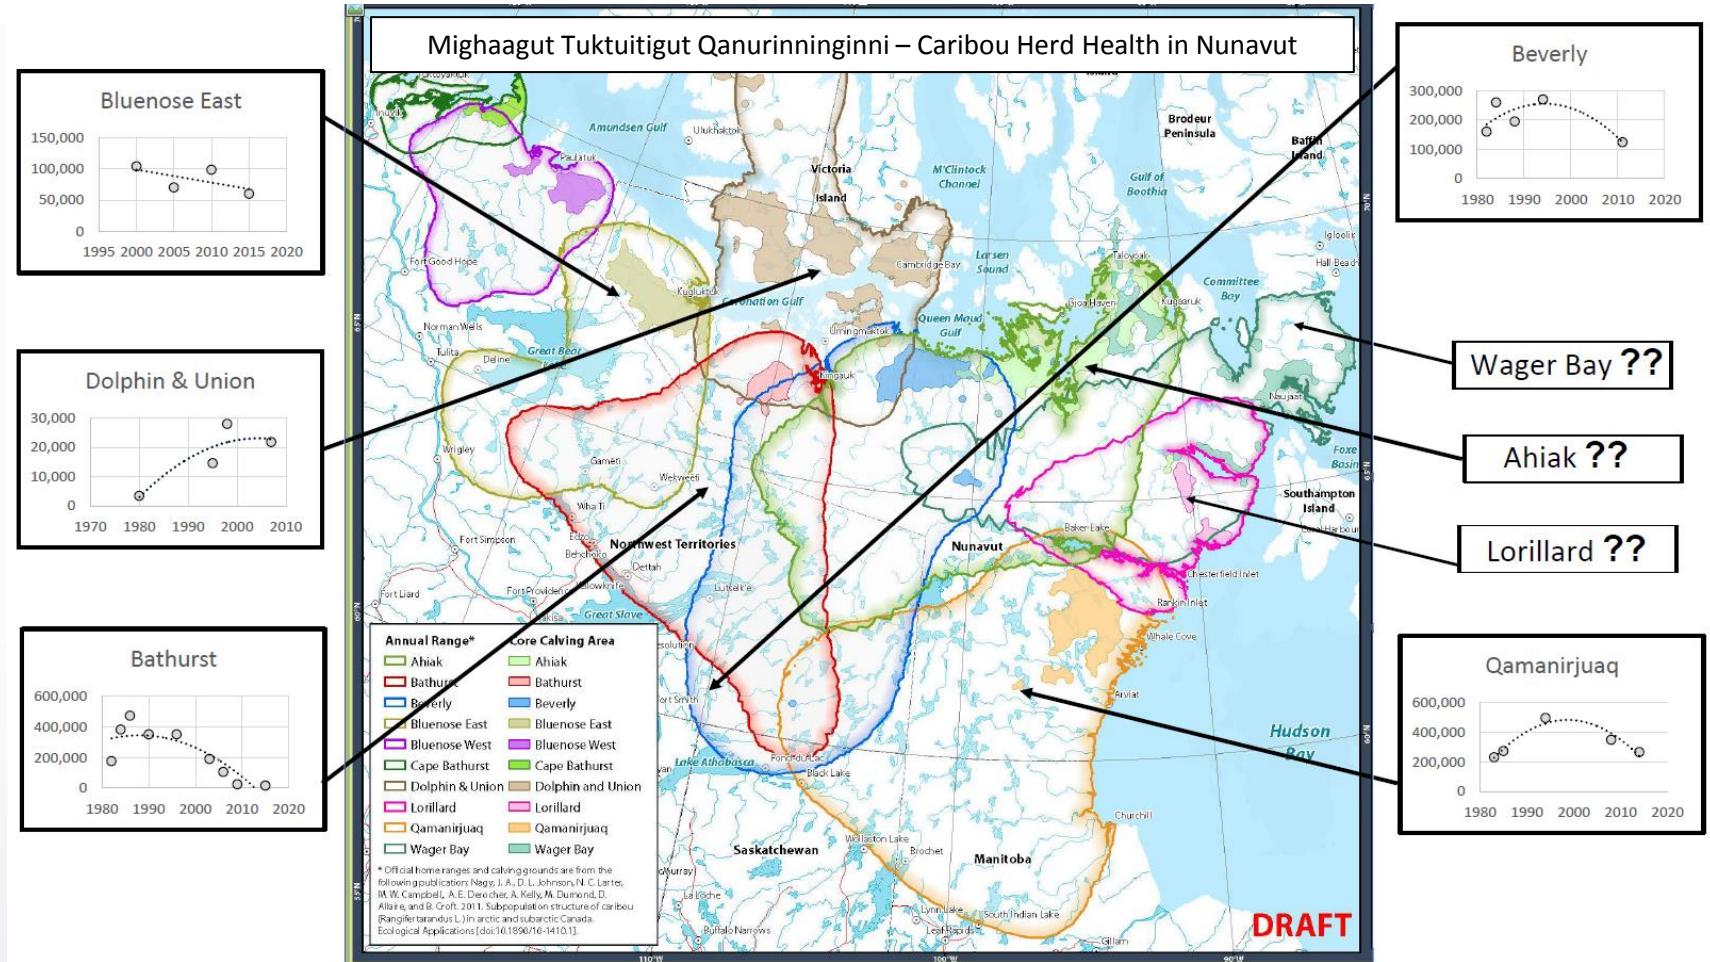

2008-mi taapkuanginnaik Qamanirjuaq unalu Beverly tuktiutait avaliittumik pitjutiqaqpiarhimayuk akitutilaanik Inuinnarnun avatquhimapluni \$11 million-nik; akitutilaanguyumik \$110 million-nik ukunani tikittukhani qulini ukiuni.

- Niqirkut niqit = aannialaqihainnaqtaangittut ilagiiktut
- Pitquhikkut pitjuti = akitlaarutiqangittuq

The GN recommends a ‘Special Management Area’ DNLUP designation for caribou calving grounds, key access corridors, post-calving grounds, and freshwater crossings.

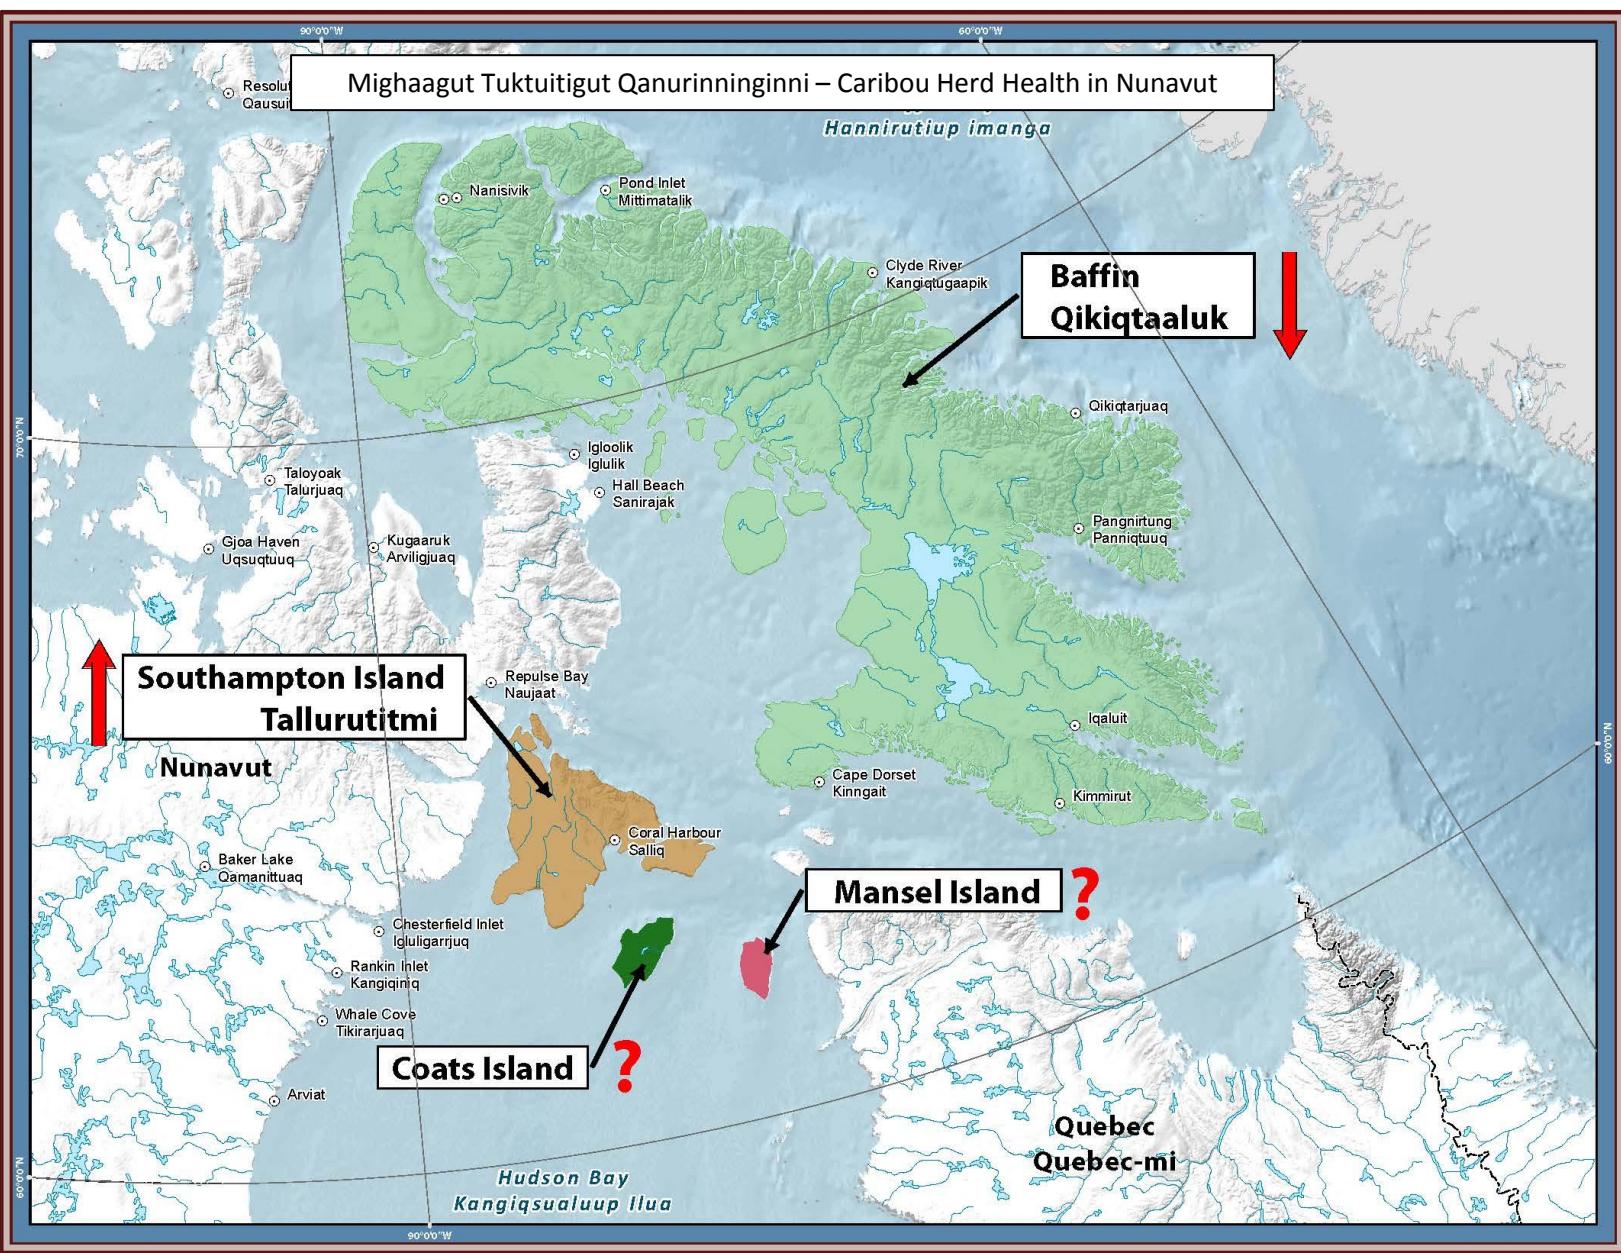

GN-kut pitquhimayut uuminnga ‘Aallangayukkut Aulapkainikkut Nunamik’ DNLUP tikkuaqtauhimayukhaq tuktuit nurriiviinni, ingilravilluanginni, nurrihuiraangata nayurvilluangit, ukuallu imariktut ikaarviit.

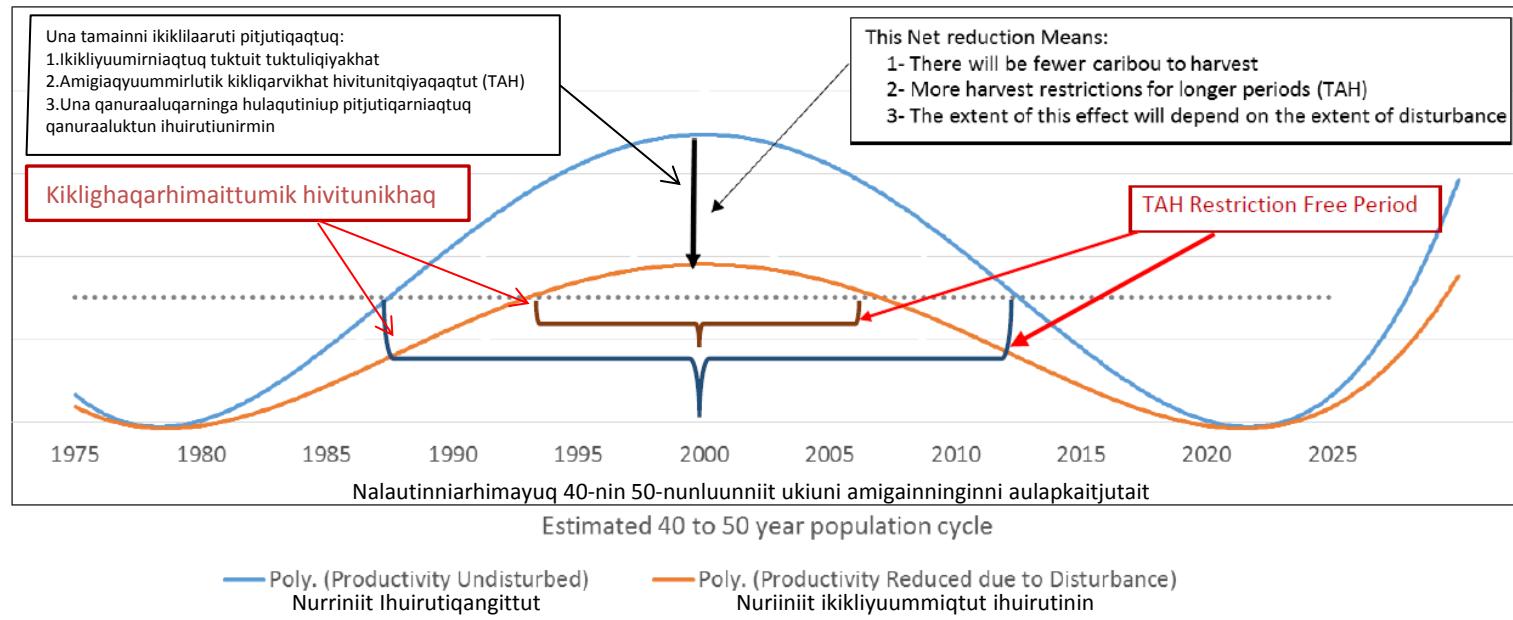

- Much is known (Inuit Qaujimajatuqanit and science) about caribou herd health in Nunavut, though some information gaps remain.
- Amigaittut ilitturihimannikut (Inuit Qaujimajatuqanit nalunavyaqtunilu) mighaagut tuktuitigut qanurinninginni Nunavunmi, kihimi ilanginni ilitturipkaitjutkhainni piqangittuq.

Mighaagut Tuktuitig Qanurinninginni – Caribou Herd Health in Nunavut

Angikliharnikkut amigainninginnik

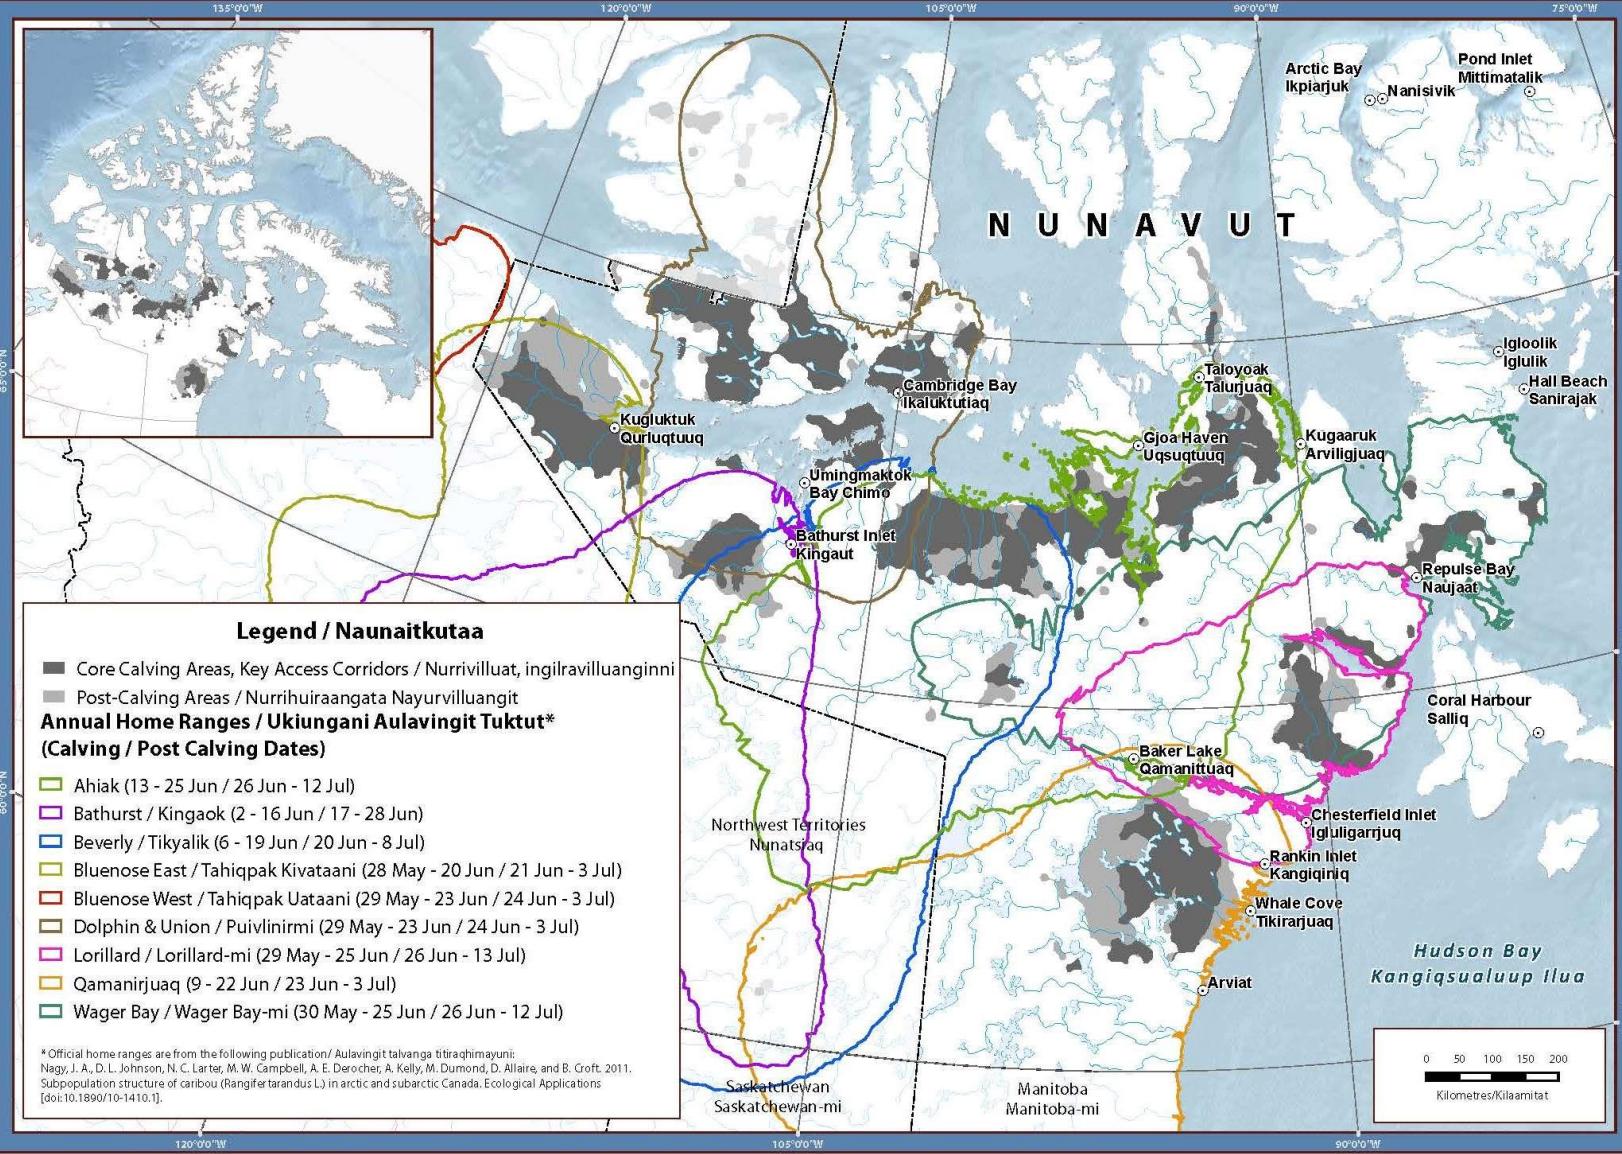

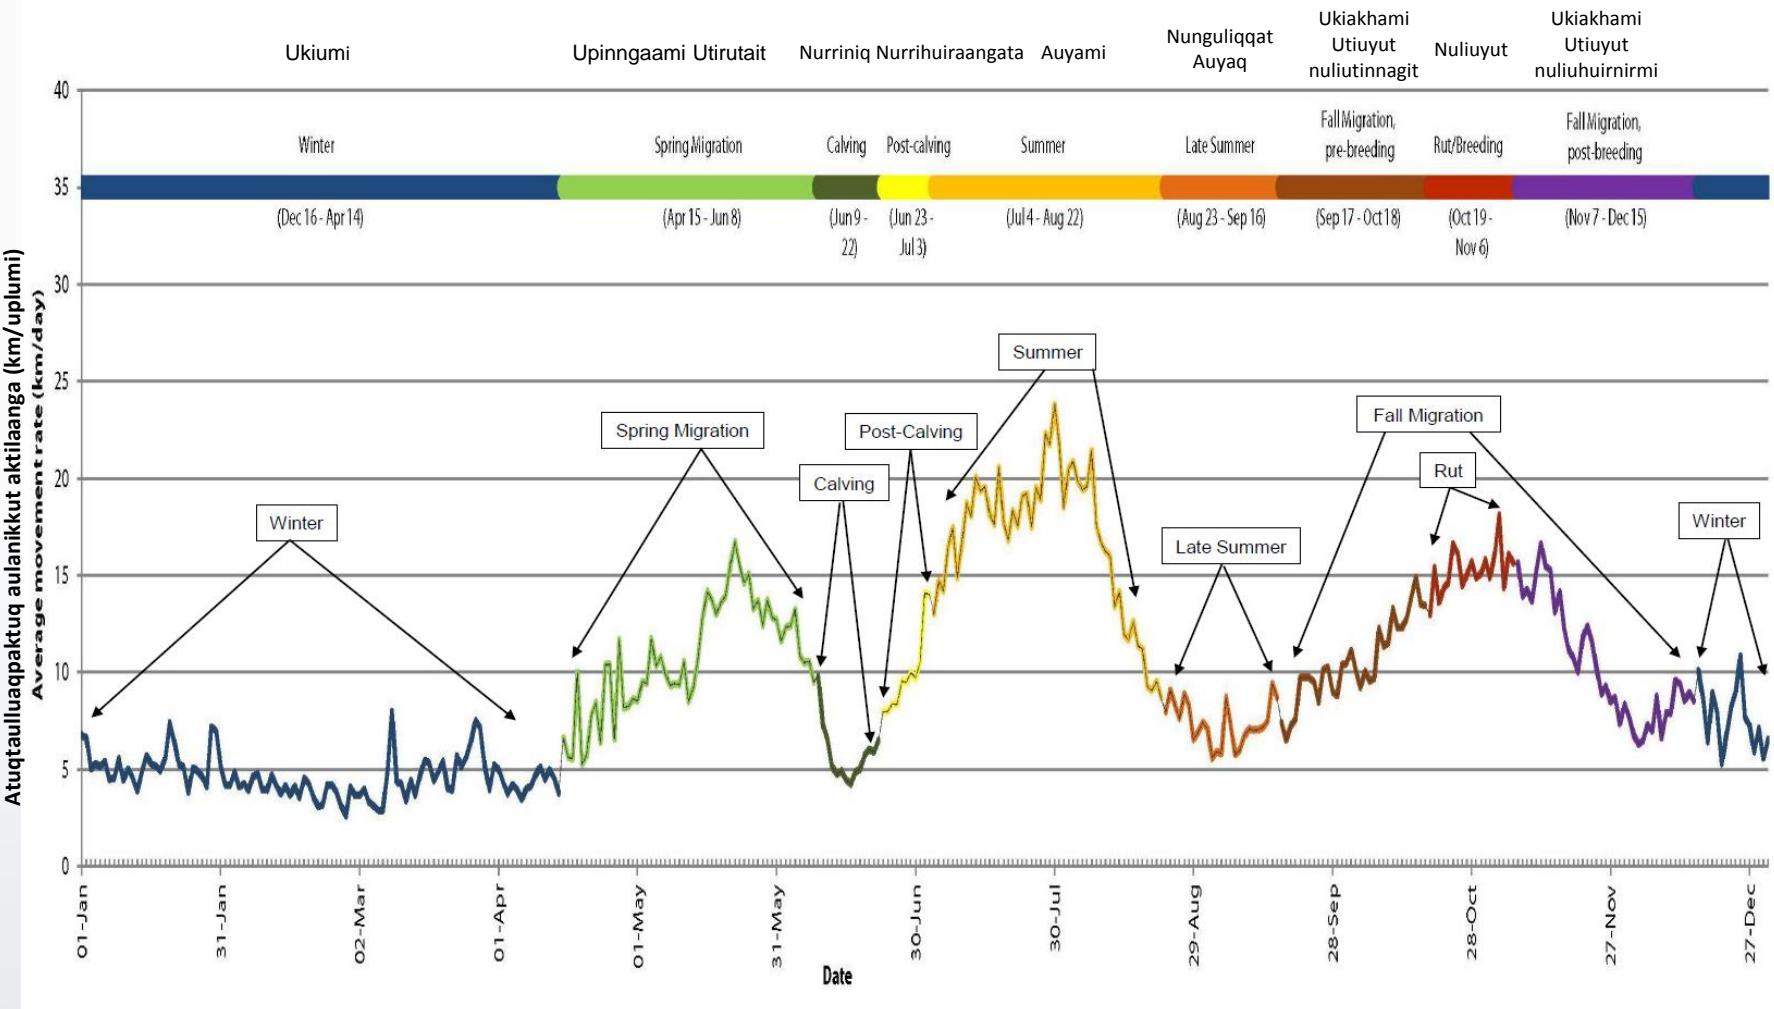

- Contributing to the NPC's development of the DNLUP (and NIRB assessments of projects), are just a couple of the many ways in which the GN works to protect unrestricted sustainable harvesting of caribou.
- Many factors may have impacts on overall caribou abundance (climate change, habitat fragmentation, natural pop. fluctuations, predation, etc.). Factors may have cumulative impacts to herds.
- Tuninikkut NPC-kunnun pivallialiurnanganun DNLUP-mik (uvanilu NIRB-lit qauyi harninginni havaktauyukhani taimaatut atauhillaaqtakhugit tunnganiqarnikkut) atauhiyuq amigaittuni taimaatut GN-kut havakpaktut hapumminikkut kiklighaqangittuni anguniarninginni tuktunik.
- Amigaittut qanuriliurutit hulaqutiqaqtaarungnarhiyut tamainni tuktuinni amigainninginni (hilaup aallanguqtirningani, nayurviginirni aallanguqtirnirni, aturaanginnaqpaktuni amigainninginni aallanguqtirutainni, anguyauninginni huratjanin, aallallu). Qanuritjutit piqaqtaaqtut angikliyuummiqtaaqtunik hulaqutikhanik tuktuinnun.

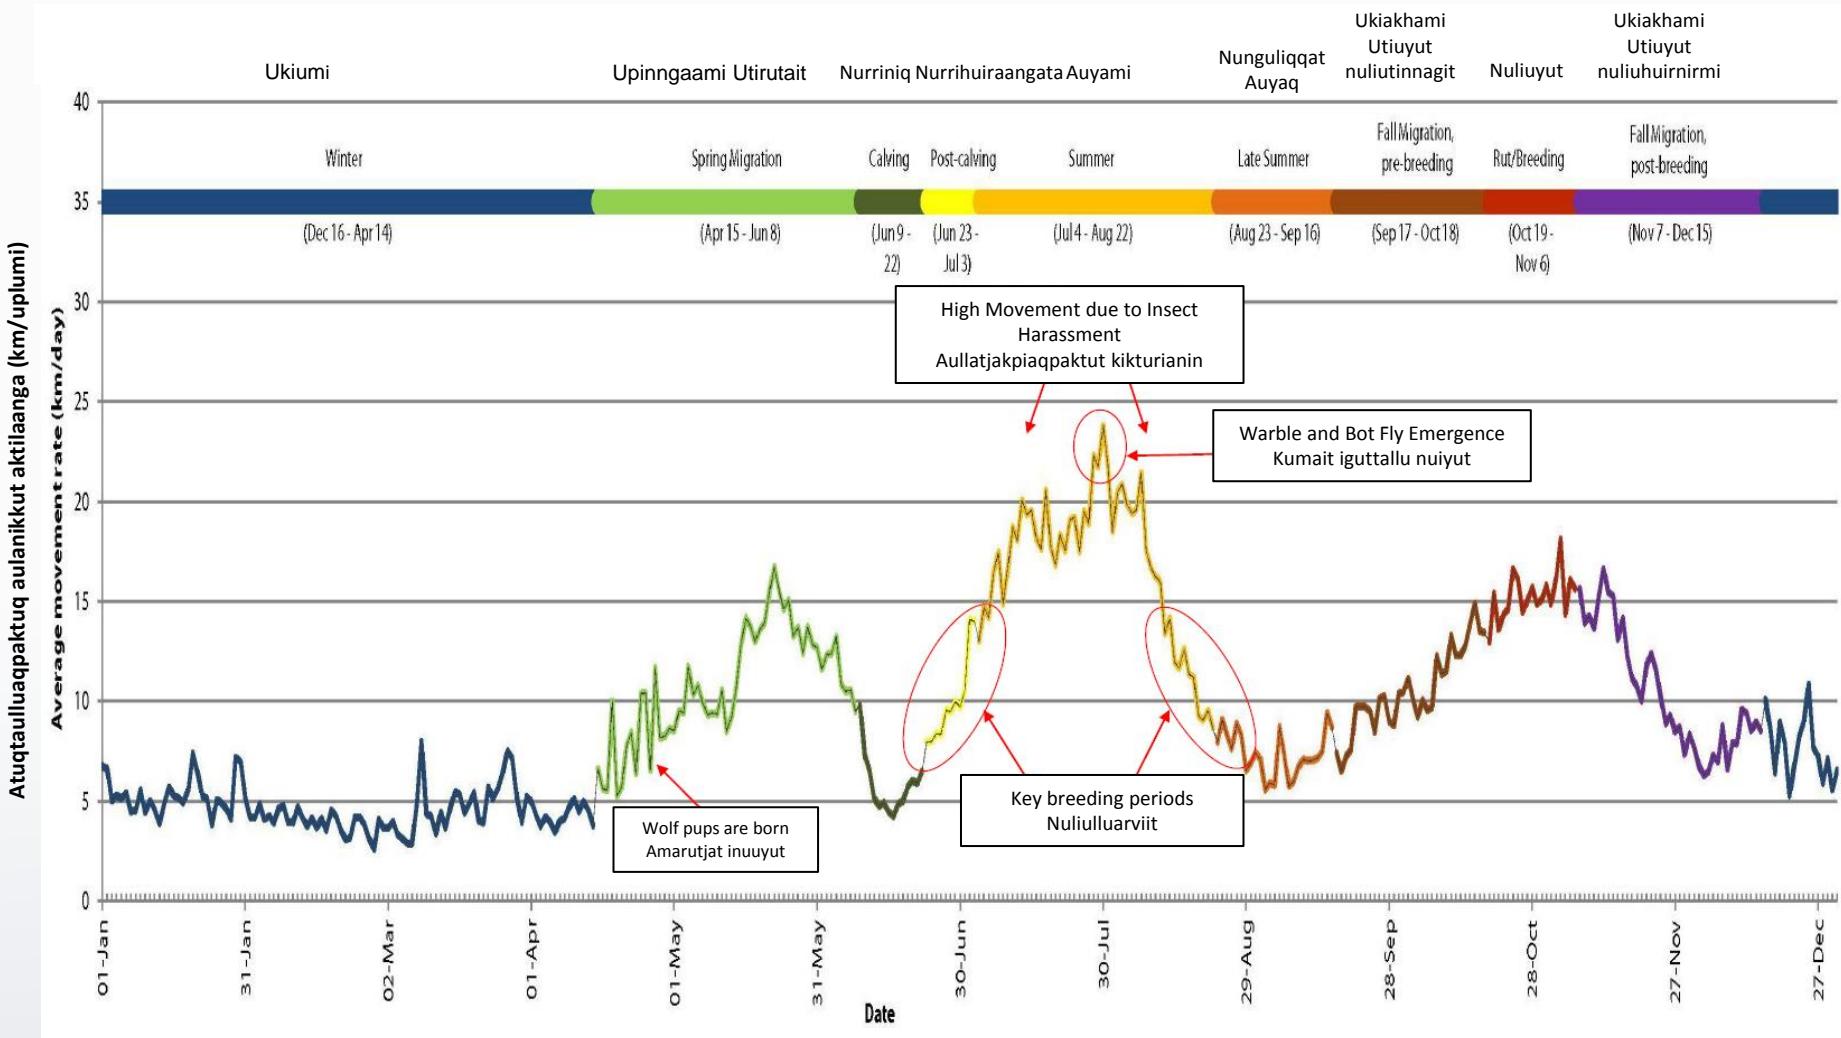

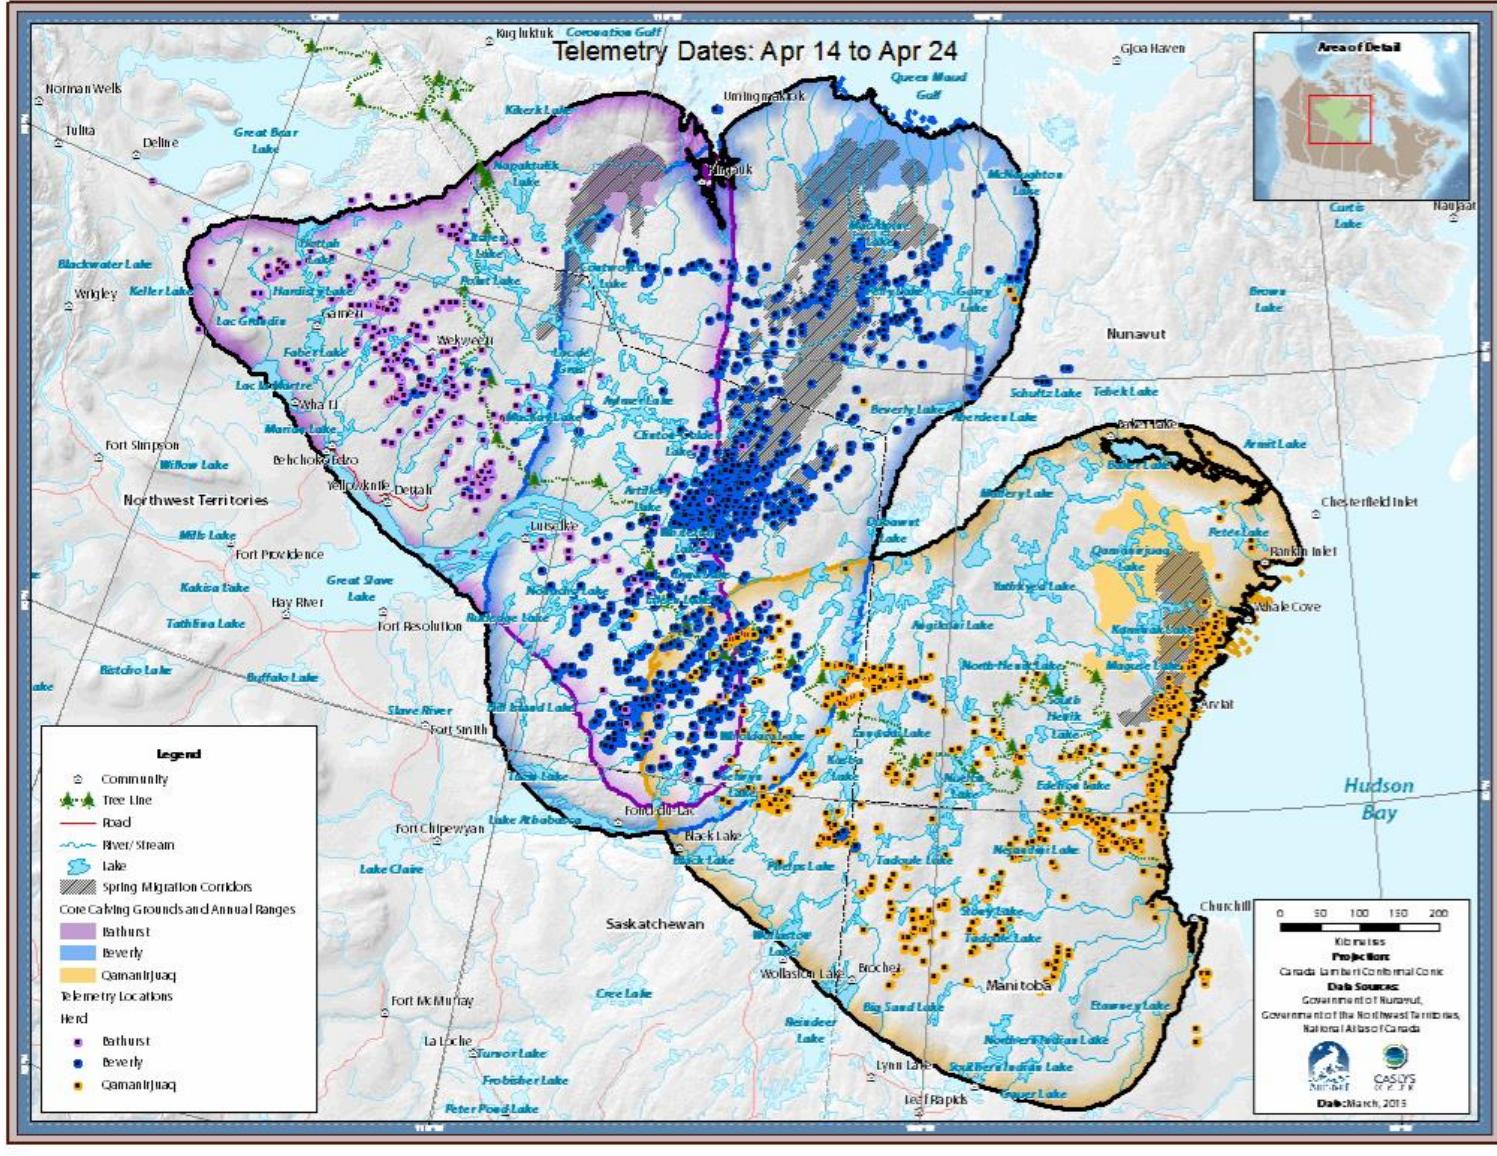

Core-Calving, Key Access Corridor and Post-Calving Areas of Mainland Migratory Caribou in Nunavut

Based on a study of 8 major mining projects across the 3 territories, the average mine with a 15 year life span can generate:

- \$1.44 billion in economic impacts (direct, indirect, and induced employment), and
- \$1.42 billion in total fiscal premiums (federal tax, territorial tax, and royalties)

Tunnganiqarhuni qauyiarnirnin 8-nin angiyunik uyaraghiurnikkut havaktauvakhimayunin tamaani pingahuni ukiuqtaqtuni nunanin, uyaraghiuqvik 15-nik ukiunik aulaniqaqtuq pipkaqtittaqtuq:

3.0 QANURILIURNIARMANGAAT

3.0 CONCLUSIONS

- The successful completion of the DNLUP is government priority.
- Revisions to the DNLUP are necessary to achieve a balance between environmental and economic goals.
- The GN will continue to collaborate with all stakeholders, including the Nunavut Planning Commission, to ensure the DNLUP achieves its intended goals.
- Nakuuyumik iniqtirhimaniq uumani DNLUP-kunni kavamatkunni hivulliutiyauhimayuq.
