Re: North Baffin Regional Land Use Plan Proposed By Baffinland.

We have heard at the hearings in Pond Inlet the arguments for and against the amendment application By Baffinland while we agree there are still many challenges out there that need to get addressed this can be done thru future negotiations with NIRB and other agencies, it's important to North Baffin Communities that this project move forward and provide future employment and economic opportunities for the people in the communities within the region, therefore we support the amendment presented to NPC and respectfully request that it be approved so we can move this critical project forward.

Sincerely,

Ike Hauli

President
