Good afternoon Johnathan,

The Board of Directors wish to be able to speak if and when they feel that the information that is given is incorrect in their view rather than not to be able to say anything during the proceedings. I hope that makes sense. I hope this makes sense and if not, please feel free to ask further questions. Thank you.

Hi Niore,

Thank you for the contact information. It would be great if you could also briefly outline why you want to participate and how you could inform the NPC's land use planning decisions.
