

Jonathan Savoy
Nunavut Planning Commission
P.O. Box 2101
Cambridge Bay, Nunavut X0B 0C0

October 5, 2021

Dear Mr. Savoy,

RE: Comments on the 2021 Draft Nunavut Land Use Plan

We, Solstice Gold Corporation, currently have as our flagship exploration asset the KGP Project ("KGP") located approximately 26 km Northeast of Rankin Inlet and Southwest of Chesterfield Inlet. We have expended a significant amount of time and our shareholders' money on this project and as such we are obliged to comment on the latest draft of the Nunavut Land Use Plan. Specific to our project, we have a number of concerns with the three greatest being the new Limited Land Use designated area between our project and the community of Rankin Inlet, the lack of clarity on the grandfathering of our claims and the size of the road corridor/right of way between Rankin Inlet and Chesterfield Inlet.

The new Limited Land Use Designation between KGP and Rankin Inlet potentially presents a major obstacle for us in terms of any future development of the site. The Limited Land Use area restricts access to our project in terms of overland all-season access from Rankin Inlet. While I understand there is an extremely large corridor for the construction of a road between the communities of Rankin Inlet and Chesterfield Inlet, this does not necessarily provide for the required road development. As with all projects yet to be completed (both public and private) there is no guarantee that the road between the communities will be completed, and if it is not completed, KGP will potentially be land restricted from Rankin Inlet. Without potential adequate access to our project the economics of development may become impaired.

The "Grandfathering" of KGP in terms of the existing permits and future development of the project are also of concern. We would like to see the language that guarantees our rights and future development more clearly laid out. We have concerns around the uncertainty of the ongoing extensions of our winter trail permit, extensions and expansions of our exploration and drilling permits, development permits should our exploration programs prove successful. I reiterate that the KGP project has been the core focus of our company since inception and continues to be the flagship asset of Solstice Gold. Without clarity our shareholders may be concerned on the future potential development of the site.

The third concern is the Right of Way/Road Corridor between the communities of Chesterfield Inlet and Rankin Inlet itself. While we are supportive of the road being built to connect the communities, the corridor on the maps appears to be massive in scale and completely surrounds a significant number of

claims on our project including those in certain core areas. We are concerned as to what this may do to sterilize our project. The details provided on the Corridor and our ability to continue to advance our project within this corridor is very unclear. Our preference would be to remove the corridor from the plan/map altogether and go back to the process that was already underway with the Government of Nunavut Department of Economics and Transportation.

On top of the concerns raised above we agree with the letter submitted by the NWT and Nunavut Chamber of Mines to the NPC, dated October 8, 2021 on this topic. The concerns we have raised and those raised by the Chamber of Mines, both individually and combined, if not addressed adequately, may give us reason to consider our corporate strategy with regards to our KGP project and the effort and exploration capital we expend in the Territory.

Below is a full list of claims for which Solstice either has a form of mineral rights on either 100% owned claims, 50% owned claims, or secondary rights through a contractual agreement with Kodiak Copper Corp. on their 100% owned claims.

We know that the Nunavut Planning Commission will take our concerns seriously and we look forward to continuing the dialogue on mineral exploration in Nunavut.

Regards,

A handwritten signature in black ink, appearing to read "Martin Tunney", with a large, stylized flourish extending from the end of the signature.

Martin Tunney

President

Solstice Gold Corporation
