Mr. Burlingame,

RE: Application to Amend North Baffin Regional Land Use Plan (NBRLUP) - Information Requests

The Nunavut Planning Commission (NPC) has directed that parties may submit further information requests to Baffinland Iron Mines Corporation (BIMC) by not later than October 26, 2017.

These information requests have been developed taking into consideration BIMC's letter of October 24th, 2017 removing winter shipping from the Phase II Project Proposal. Given the timelines associated with this request the items listed are naturally broad in nature.

- A. QIA requests that BIMC file with NPC for the public review record any document or record of information pertaining to all community involvement events and activities related to the Phase 2 Proposal, and/or the proposal for a 3rd amendment to the NBRLUP.

Without limiting the generality of the foregoing, the foregoing information request includes two specific time periods generally described as follows:

1. In relation to the activities described in the Jason Prno Consulting Services Ltd. community workshops report (Prno, 2017), QIA specifically requests that BIMC provide copies of all materials from community engagements held by BIMC between or following the workshops described in Prno, 2017, and which occurred between March 3, 2015 and May 10, 2016. For additional clarity, this request includes all events, and materials presented to or distributed within the affected communities, between March, 2015 and the present.
2. QIA is also seeking materials from the community engagements held by BIMC including: meeting agendas, meeting minutes, presentations and distributed printed materials, especially materials prepared in Inuktitut from June 2016 until September 2017. Parties receiving such materials include HTOs; Hamlet members and councils; community groups, such as the Mary River Community Group; high schools; and the community at large, via town-hall or similar meetings or events.

Current Reference Document: Jason Prno Consulting Services Ltd. 2017. Results of Community Workshops Conducted for Baffinland Iron Mines Corporation's Phase 2 Proposal. Report prepared for Baffinland Iron Mines Corporation. January 2017.

In the table below is a listing of the events that QIA is aware have taken place from November 2016 onwards and for which QIA has some level of information:
