## **APPENDIX B: WORKSHOP CONSENT FORMS**

Workshop #1: **INUIT QAUJIMAJATUQANGIT STUDIES SUPPORTING THE MARY RIVER PROJECT**  
 Workshop Title: Contemporary Inuit Land Use Date: March 3-4, 2015 Location: Baffinland Resource Centre Pond Inlet, Nunavut

Inuit Qaujimajatuqangit (IQ) is described as Inuit knowledge of the land and water, wildlife, and Inuit customs, beliefs and values. IQ workshops are being held to collect information on Baffinland Iron Mines Corporation's (Baffinland) Phase 2 proposal for the Mary River Project. The information you provide will be used to help plan the Mary River Project and to support an environmental impact assessment of the Phase 2 proposal. Baffinland may only use the knowledge you share in the development of impact assessments for the Project; you will retain your ownership rights (if any); you are not being asked to give away or waive any rights that you might have (if any) to the IQ collected from you.

Please be advised that what we talk about at this workshop may be audio recorded and photographs may be taken. The verbal, written, and spatial information you provide in this workshop may be used in publically available reports and presentations for Baffinland's Mary River Project. The information used may include personal information about you, such as your name and community. Baffinland and the Qikiqtani Inuit Association (QIA) are working together to hold these workshops, and in accordance with the Inuit Impact and Benefit Agreement (IIBA) signed by Baffinland and the QIA, all original copies of IQ workshop materials will be returned to the QIA. QIA will serve as steward of any IQ collected at the workshops and by signing below, QIA has your consent to keep all IQ collected from you in its records and QIA may use it for any future purposes. Copies of these materials will also be provided to the community of Pond Inlet and Baffinland will retain copies of all workshop materials for their own files. Please note the QIA has previously approved the methodology used in this workshop.

By signing this form, you understand the purpose of these IQ workshops, you wish to participate, and you give us consent to record your words and use the information you provide. You are also free not to participate in the workshop. You may request that your name be included, or not included in any reports and presentations, by checking the appropriate box next to your name.

Please read and sign below if you agree.

I have been fully informed of the objectives of the study being conducted. I understand these objectives of the study and consent to having my information documented for the study. I understand that steps will be undertaken to ensure that the information I share will remain confidential unless I consent to being identified. I also understand that I am free not to participate in the study if I choose.

## Workshop 4: Caribou Phase 2

Nov 20, 21, 22, 2015

Pond Inlet, NU

 $2/2$ [illegible]

**Baffinland contact information:** Jennifer St. Paul Butler, Sustainability and Reporting Specialist, Baffinland Iron Mines Corporation, Tel: (416) 364-8820 x 5050, Email: [jennifer.stpaulbutler@baffinland.com](mailto:jennifer.stpaulbutler@baffinland.com)

# INUIT QAUJIMAJATUQANGIT STUDIES SUPPORTING THE MARY RIVER PROJECT

Workshop Title: Workshop #4 CARIBOU Date: MAY 8 2016 Location: POND INLET, NU.  
 (open house)

Inuit Qaujimajatuqangit (IQ) is described as Inuit knowledge of the land and water, wildlife, and Inuit customs, beliefs and values. IQ workshops are being held to collect information on Baffinland Iron Mines Corporation's (Baffinland) Phase 2 proposal for the Mary River Project. The information you provide will be used to help plan the Mary River Project and to support an environmental impact assessment of the Phase 2 proposal. Baffinland may only use the knowledge you share in the development of impact assessments for the Project; you will retain your ownership rights (if any); you are not being asked to give away or waive any rights that you might have (if any) to the IQ collected from you.

Please be advised that what we talk about at this workshop may be audio recorded and photographs may be taken. The verbal, written, and spatial information you provide in this workshop may be used in publically available reports and presentations for Baffinland's Mary River Project. The information used may include personal information about you, such as your name and community. Baffinland and the Qikiqtani Inuit Association (QIA) are working together to hold these workshops, and in accordance with the Inuit Impact and Benefit Agreement (IIBA) signed by Baffinland and the QIA, all original copies of IQ workshop materials will be returned to the QIA. QIA will serve as steward of any IQ collected at the workshops and by signing below, QIA has your consent to keep all IQ collected from you in its records and QIA may use it for any future purposes. Copies of these materials will also be provided to the community of Pond Inlet and Baffinland will retain copies of all workshop materials for their own files. Please note the QIA has previously approved the methodology used in this workshop.

By signing this form, you understand the purpose of these IQ workshops, you wish to participate, and you give us consent to record your words and use the information you provide. You are also free not to participate in the workshop. You may request that your name be included, or not included in any reports and presentations, by checking the appropriate box next to your name.

Please read and sign below if you agree.

*I have been fully informed of the objectives of the study being conducted. I understand these objectives of the study and consent to having my information documented for the study. I understand that steps will be undertaken to ensure that the information I share will remain confidential unless I consent to being identified. I also understand that I am free not to participate in the study if I choose.*

## APPENDIX C: WORKSHOP QUESTIONNAIRES AND DATA COLLECTION GUIDES

Workshop #1 Seasonal Calendar Data Collection Guide

Theme	Description (Note – Information may be textual or spatial)
Month or season	
Weather conditions <ul style="list-style-type: none"><li>• Temperature</li><li>• Sunlight</li><li>• Precipitation</li></ul>	
Sea ice conditions	
Important sea-ice/ocean travel corridors	
Travel methods used <ul style="list-style-type: none"><li>• Snow machine</li><li>• Dog team</li><li>• Boat</li><li>• ATV</li></ul>	
Land use activities and locations <ul style="list-style-type: none"><li>• Marine mammal harvesting<ul style="list-style-type: none"><li>○ Seal (e.g. ringed, bearded, harp)</li><li>○ Narwhal</li><li>○ Beluga</li><li>○ Bowhead</li><li>○ Killer whale</li><li>○ Walrus</li><li>○ Polar bear</li></ul></li><li>• Fishing</li><li>• Camping / cabin trips and touring</li><li>• Inter-community travel</li><li>• Travel to inland areas (e.g. for hunting)</li><li>• Floe edge hunting and camping</li><li>• Tourism (e.g. park use, polar bear hunting, floe edge tourism)</li><li>• Birds and egg harvesting (e.g. geese, cliff nesting birds)</li><li>• Other marine resources (e.g. seaweed, clams, mussels)</li></ul>	
Land use intensity <ul style="list-style-type: none"><li>• None (the activity does not occur during this time period)</li><li>• Low (the activity occurs, but not often)</li><li>• Medium (the activity occurs often)</li><li>• High (the main period when this activity occurs)</li></ul>	
Other land use information <ul style="list-style-type: none"><li>• Approximate number of land users participating in activities</li><li>• Types of people/groups engaged in land use activities</li><li>• Length of time land users are engaged in particular activities (e.g. day trips, weekends, multi-day trips)</li><li>• Other</li></ul>	

**\*\*Notes\*\***

- Important sea-ice/ocean travel corridors and land use areas will be spatially documented on monthly/seasonal maps. However, detailed land use mapping will not occur as the original IQ study has already documented much of this information.

- Only sea ice and ocean use in the Eclipse Sound area will be focused on for the seasonal

calendar. Terrestrial land uses will not be documented in any detail. Information on terrestrial uses, when provided by IQ holders, will not be discouraged or ignored, but will be recorded in a summarized manner instead.

## Workshop #2 Questionnaire / Data Collection Guide

1. Now that you've had an opportunity to learn more about the shipping through ice component of Baffinland's Phase 2 proposal, what are your general impressions of it?
2. Do you have any concerns you would like to share with us regarding the shipping through ice component of the Phase 2 proposal? Specifically with regards to:
  - a. Inuit land use. If so, please describe the land use you are concerned about, why you are concerned, and the time of year in which your concern relates to.
  - b. Marine mammals and the marine environment. If so, please describe the marine mammals/marine environment component you are concerned about, why you are concerned, and the time of year in which your concern relates to.
  - c. Other. If so, please describe your concern in more detail and the time of year in which it relates to (if applicable).
3. Do you have any suggestions as to how your concerns might be alleviated (i.e. suggested mitigation and monitoring options)? Specifically with regards to:
  - a. Inuit land use
  - b. Marine mammals and the marine environment
  - c. Other
4. What are your thoughts on the shipping through ice mitigation and monitoring options discussed by Baffinland in this workshop? Do you think they are a good idea? Can they be improved? If so, how?
  - a. Ship track crossing options (e.g. methods, locations, timing, community notification, other logistical matters)
  - b. Monitoring options
  - c. Employment/business opportunities
  - d. Other
5. Can you describe what the ice conditions are like along:
  - a. The proposed Phase 2 shipping through ice route in Eclipse Sound?
  - b. Navy Board Inlet and Lancaster Sound?

### Workshop #3 Questionnaire / Data Collection Guide

1. Now that you've had an opportunity to learn more about the open water shipping component of Baffinland's Phase 2 proposal, what are your general impressions of it?
2. Do you have any concerns you would like to share with us regarding the open water shipping component of the Phase 2 proposal? Specifically with regards to:
  - a. Inuit use of the marine environment
  - b. Marine mammals
  - c. Other
3. How would you characterize Inuit hunters' current interactions with open water shipping?
4. Do you have any suggestions as to how your concerns might be alleviated (i.e. suggested mitigation and monitoring options)? Or how conflicts between Baffinland and hunters can be avoided? Specifically with regards to:
  - a. Inuit use of the marine environment
  - b. Marine mammals and the marine environment
  - c. Other
5. Among the potential trans-shipping locations in Milne Inlet presented by Baffinland, are there any that are preferable/less preferable to you? Why?
6. What are your thoughts on the open water shipping mitigation and monitoring options discussed by Baffinland in this workshop? Do you think they are a good idea/bad idea? Can they be improved? If so, how?
  - a. Mitigation options (1st avoid the impact to the extent possible, 2nd minimize the impact to the extent possible, 3rd mitigate the impact to the extent possible)
  - b. Monitoring options (monitoring that can compare predicted versus actual impacts)
  - c. Employment/business opportunities
  - d. Other
7. Can you describe what the ocean and boating conditions (e.g. wind, currents, tides, hazards, icebergs,) are like along:
  - a. The proposed Phase 2 shipping route in Eclipse Sound and Pond Inlet?
  - b. Navy Board Inlet and Lancaster Sound?

## Workshop #4 Questionnaire / Data Collection Guide

1. Now that you've had an opportunity to learn more about Baffinland's Phase 2 proposal, what are your general impressions of it?
2. Do you have any concerns you would like to share with us regarding potential caribou interactions with the proposed Phase 2 activities? Specifically with regards to:
  - a. Caribou populations. If so, please describe what exactly you are concerned about, why you are concerned, and the time of year in which your concern relates to.
  - b. Inuit harvesting of caribou. If so, please describe what exactly you are concerned about, why you are concerned, and the time of year in which your concern relates to.
  - c. Other. If so, please describe your concern in more detail and the time of year in which it relates to (if applicable).
3. Please describe the time horizon in which you expect to see an increase in caribou population numbers in the northern Baffin Island region.
4. Please describe the general lifecycle and ecology of northern Baffin Island caribou, using months/seasons for reference if possible [note: mapping may occur].
5. Please describe contemporary Inuit caribou harvesting activities in the northern Baffin Island region, using months/seasons for reference if possible [note: mapping may occur].
6. Do you think that the tote road activity described will prevent caribou populations from recovering or slow recovery?
7. Do you have any suggestions as to how your concerns might be alleviated (i.e. suggested mitigation and monitoring options)? Specifically with regards to:
  - a. Caribou populations
  - b. Caribou interactions with the road, and traffic effects on caribou movement
  - c. Inuit harvesting of caribou
  - d. Other
8. What are your thoughts on the mitigation and monitoring options for caribou discussed by Baffinland in this workshop? Do you think they are a good idea/bad idea? Can they be improved? If so, how?
  - a. Mitigation options
  - b. Monitoring options
  - c. Employment/business opportunities
  - d. Other

## Workshop #5 Questionnaire / Data Collection Guide

1. Is the information collected during Workshop #1 (contemporary Inuit land use) accurate and complete? Does any information need to be added or modified? Specifically with regards to:
  - a. Inuit land use
  - b. Environment / wildlife
  - c. Other
2. Is the information collected during Workshop #2 (shipping through ice) accurate and complete? Does any information need to be added or modified? Specifically with regards to:
  - a. Inuit land use
  - b. Environment / wildlife
  - c. Community concerns
  - d. Mitigation, monitoring, and compensation recommendations
  - e. Shipping route conditions in Eclipse Sound and Navy Board Inlet
  - f. Other
3. Is the information collected during Workshop #3 (open water shipping) accurate and complete? Does any information need to be added or modified? Specifically with regards to:
  - a. Inuit land use
  - b. Environment / wildlife
  - c. Community concerns
  - d. Mitigation, monitoring, and compensation recommendations
  - e. Trans-shipping locations
  - f. Shipping route conditions in Eclipse Sound and Navy Board Inlet
  - g. Other
4. Is the information collected during Workshop #4 (caribou) accurate and complete? Does any information need to be added or modified? Specifically with regards to:
  - a. Inuit land use
  - b. Environment / wildlife
  - c. Community concerns
  - d. Mitigation, monitoring, and compensation recommendations
  - e. Other
