Subject: Support of letter to BIM's "Phase II" Project.

Good afternoon,

I am the Community Liaison Officer for Clyde River with Baffinland Iron Mines.

I am writing this letter of support for BIM's Phase II & railroad project.

Due to lack of jobs and training in the community, BIM is one of the main employer for the community of Clyde River.

I encourage Nunavut Planning Commission to approve the requested railroad project.

Without the Mary River project, the families of over 30 employees would have to go back to Income Support.

Thank you for your time and have a good day.

Thanks,
George Iqalukjuak – BCLO, Clyde River, NU

Baffinland
