

The
Commissioners of the
Nunavut Planning Commission

Invite You to Attend a Presentation on the
Nunavut Land Use Plan

January 30, 2008
9:00 am to 12:00 pm
Chairman Room, Westin Bayshore Resort & Marina
Vancouver, BC

The Nunavut Planning Commission is launching a new land use planning process for Nunavut. The resulting Nunavut Land Use Plan will guide and direct resource use and development within the Nunavut Settlement Area.

The Commission will present the Broad Land Use Planning Policies, Objectives and Goals developed for the Nunavut Settlement Area in conjunction with Government and Nunavut Tunngavik Incorporated; discuss the Nunavut Land Use Plan Development Process, and the role the mining industry can play in plan development. This will be followed by discussions with industry representatives to identify and scope out mineral exploration and development related issues to be considered during plan development.

This presentation will be of interest to industry representatives active in Nunavut.

The Commissioners of the Nunavut Planning Commission and senior staff will be present at this session and look forward to hearing from mineral exploration and development representatives working in Nunavut.

For information please contact Adrian Boyd, Director of Policy,
Nunavut Planning Commission
