

## Distribution List

The Nunavut Planning Commission is a public agency created by the Nunavut Land Claims Agreement. We are developing the Nunavut Land Use Plan (the Plan) to manage land use in areas outside Municipal boundaries. The purpose of the Plan is to balance the many different interests related to economic development and conservation with the priorities and values of residents and communities of Nunavut. The Plan will apply to all land, water, marine areas, wildlife and non-renewable resources in the Nunavut Settlement Area.

The Commission has had a number of reports developed to assist with understanding the land and resources in Nunavut. These reports are for your information and may be used as part of your educational activities. There are some problems with the Inuktitut translations on our maps. We apologize for this and we will have those fixed shortly. These reports and an interactive map are available on our website at [nunavut.ca](http://nunavut.ca). Our interactive map allows users to prepare their own map to see for themselves the relationship between economic development, conservation, and Inuit use and occupancy activities in Nunavut.

If you have any questions about our research or activities please contact Jonathan Savoy, Policy Analyst at 1-867-983-4625 or [jsavoy@nunavut.ca](mailto:jsavoy@nunavut.ca).

Respectfully,

S Ehl. A

Sharon Ehloak, Executive Director  
Nunavut Planning Commission
