Dear Sharon:

**Re: Working Draft Land Use Plan Materials**

Thank you for the opportunity to discuss the Government of Canada's letter of August 11, 2010 in which the participating federal departments indicated they would be unable to provide you with a submission by the end of August; however committed to responding by September 30, 2010.

Further to our discussion, as a compromise I agreed that we would provide our submission by September 16, 2010, recognizing the submission will not be as comprehensive as originally anticipated. Accordingly I look forward to opportunities for further input comment as the plan progresses.

Again, thank you for continuing to work in a collaborative and productive manner with the Government of Canada.

Sincerely,

Bernie MacIsaac  
A/Regional Director General
