Dear Richard Dwyer, Tracey McCaie, Jared Ottenhof, Talia Maksagak and Sebastien Boudreau:

RE: NPC File # 149503 [Airside Surfaces Rehabilitation and lighting upgrade]

The following works and activities have been proposed in the above-noted project proposal:

1. Production of aggregate, hauling and stockpiling of aggregate at the Hall Beach Airport. All aggregate is coming from the hamlet quarry. Activities will involve pumping less than 50 m³ water per day.
2. Location: Qikiqtani Region; [Hall Beach Airport]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has determined that this project proposal is outside the area of an applicable regional land use plan and is exempt from screening by the Nunavut Impact Review Board (NIRB). The project proposal does not require screening because it belongs to a class of works or activities set out in Schedule 12-1 of the Nunavut Agreement (NA), and the NPC does not have concerns regarding the cumulative impacts of the project proposal.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials are available at the following address:
