Dear Mr. Morrison, Ms. McCaie, Mr. Ottenhof, Mr. Gillis, Mr. Manzo, and Mr. Vary:

RE: NPC File # 149581 [StrategX Elements Corp.]

The following works and activities have been proposed in the above-noted project proposal:

1. Mineral Exploration: Conduct mineral exploration activities in select areas in the Kivalliq and Qikiqtani Regions of Nunavut this summer for about one (1) month, starting at the end of July, or beginning of August. The proposed plan is for a small crew of four persons to charter direct from Yellowknife to the Mel campsite. Specific project activities include:
 - Use of a helicopter for crew pickup and drop of at the Mel camp. The camp will be used as base for the exploration activities. The helicopter would also pick up Wildlife Monitors from Naujaat and Sanirajak and take them to the Mel camp.

- Undertake exploration activities at the RE 26 and 27 and MBA claims for about two (2) weeks with daily helicopter flights to and from to the sites (approx. three (3) flights out and three flights back to camp).
 - The small exploration crew would take rock/soil samples, conduct mapping and prospecting activities. After approximately two weeks, the crew would then move to the O and N project area for about five (5) days to one week, followed about a week at the Arviat claims.
2. Location: Qikiqtani and Kivalliq [Inuit Owned Parcels including Melville Peninsula]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. It conforms to the Keewatin/North Baffin Regional Land Use Plans (KRLUP/NBRLUP). The proponent has undertaken to comply with the applicable conformity requirements of Appendix C, G, and H of the KRLUP as well as Appendix C, H, and I of the NBRLUP. The project proposal does not require screening because it belongs to a class of works or activities set out in Schedule 12-1 of the Nunavut Agreement (NA), and the NPC does not have concerns regarding the cumulative impacts of the project proposal.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address:

<https://lupit.nunavut.ca/portal/project-dashboard.php?appid=149581&sessionid=>

The regulatory authorities to which this letter is addressed are responsible under the Nunavut Planning and Project Assessment Act (NUPPAA) to implement any of the applicable requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licenses, permits and other authorizations under subsection 69(6) of the NUPPAA.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at at (867) 983-4625.

Sincerely,

Solomon Amuno, PhD
Senior Planner
Nunavut Planning Commission
