**Re: Forum Energy Metals Corp.**

---

Forum recently staked mineral claims in the Kivalliq Region of Nunavut as announced in a news release dated February 1, 2022 for exploration of uranium. Forum previously worked in Nunavut from 2006 to 2011 and conducted a small prospecting program in 2014 as Forum Uranium Corp., the predecessor company.

Forum plans to conduct exploration work over the next several years on its claims starting in 2022 and is initiating the community engagement and permitting process. In this regard, Forum has engaged Denise Lockett to prepare, monitor and manage all aspects of the permitting process with the various regulators and this letter serves as authorization for Denise Lockett to act on behalf of Forum Energy Metals Corp.
